Amphibious Vehicles Unit Study Leader Instructions

Thank you for downloading this product. This lesson is designed to engage the student in what they are learning. This unit study was created as a Give 'N Go Study. The "Give and Go" series is designed so that the child, with your permission, is given the unit study and can independently learn it on their own. The child must be able to read and follow directions. If following directions is a challenge, this is the perfect way for them to boost their capabilities.

Amphibious Vehicles Unit Study Supply List (per child):

- Printed Unit Study
- Pencils
- Electronic Device
- Internet Access
- Dictionary
- Assorted items from around the house to build an amphibious vehicle.
- Video Camera

What subjects are covered in this Unit Study?

This unit study covers; Vocabulary, Handwriting, Science, and History.

YouTube Videos

There are two YouTube videos in this study. It is recommended that the parent preview the videos before the child sees them.

Part One: What does amphibious mean?

In this portion of the study, the child will learn what the word *amphibious* means. They will watch a YouTube video and look up the word in a dictionary or on the internet.

Part Two: Build Your Own Amphibious Vehicle

The student will watch a YouTube video about a girl who turned a car into an amphibious vehicle. After they are done, it's their turn. Let them be creative and gather their own items from around the house to make an amphibious vehicle. The goal of this activity is for the vehicle to both float in water and drive on land. They can turn a toy car into a boat that drives or put some wheels on a toy boat. Let them experiment and figure out what will work.

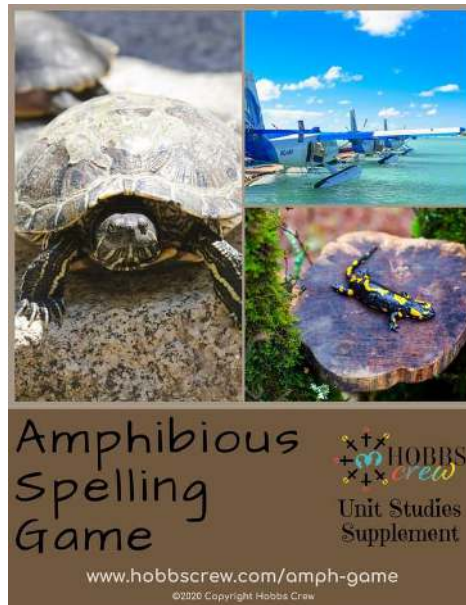

Amphibious Vehicles Unit Study Leader Instructions

Part Three: Make A Commercial

After they have built their amphibious vehicle, they will need to make a commercial “selling” their vehicle and demonstrating how it works. They can share this with their family and friends.

Amphibious Spelling Game Available!

The word amphibious is a challenging word to spell! Top off your activity time with this fun game which will help the student learn to spell it correctly! Click the image below to go to my Teachers Paid Teachers Store.

Amphibious Vehicles

Hello! This is going to be a fun activity as we explore what the word amphibious means. Have you heard that word before? Let's get started and see what we can learn about it!

Part One: What does amphibious mean?

Look up the word amphibious in a dictionary or on the internet. Write the definition below:

Amphibious

Amphibious Vehicles

Part Two: Build an Amphibious Vehicle

An amphibious vehicle is transportation that can be used on land, in water or even under the water. They can be bicycles, cars, buses, military vehicles, or boats.

How to build an AMPHIBIOUS VEHICLE with
Mikky from Little Big Shots
by InventWithMikky

<https://youtu.be/RRywpZFbAmE>

Now it is your turn to make your own version of an amphibious vehicle. You can turn a toy car into a boat or turn a boat in to a vehicle that can drive on land.

The key is that the vehicle you make must be able to be used on both land and water. There is no wrong way of doing this. Be creative and use your imagination.

Before you use any supplies make sure you check with your mom or dad that it is ok to use. Let's get started!

Activity: Build Your Own Amphibious Vehicle

Supplies: Assorted items from around your house that you can use to build an Amphibious vehicle.

1. Gather different items from around your house to build your amphibious vehicle.
2. Build it.
3. Make sure it rolls on land and floats in the water.

Amphibious Vehicles

Part Three: Make a Commercial

You have built an amphibious vehicle and now is the time to show it off. Make a commercial “selling” your vehicle and demonstrate what it can do. Show your creation to your friends and family!

Activity: Make a Commercial

Supplies: Video Camera, Your Amphibious Vehicle, and container of water.

1. Set up your video camera so you can record your commercial.
2. Press record.
3. Tell the audience what your vehicle can do and if possible, demonstrate how it works on land and in the water.
4. Share with your family and friends.
